

Higher Professional Training Course in Cybersecurity

English Applied to Computer Science

A. Discrete assessment

3. Oral Presentation – 35%

Submission deadline (18.11.2025)

⇒ presentation = 20.11.2025 (in class)

In this assignment, students will have to prepare a presentation about one of the following cybersecurity themes-related:

Fundamentals of Cybersecurity

- What is cybersecurity and why is it important?
- The most common types of cyberattacks (phishing, ransomware, DDoS, etc.).
- The importance of strong passwords and multi-factor authentication.
- Encryption: how it protects data and communications.
- Cloud security – risks and best practices.

Privacy and Data Protection

- How to protect online privacy (VPNs, browsers, secure apps).
- Social media and security: risks and how to avoid them.
- Cybersecurity for children and teenagers – tips for safe internet use.
- Data protection regulations (e.g., GDPR in Europe).
- Social engineering: how hackers manipulate people.

Network and Device Security

- What is a firewall and how does it work?
- Public Wi-Fi security: risks and how to stay safe.
- IoT (Internet of Things): benefits and dangers.
- Malware: viruses, worms, trojans, and spyware.
- Network traffic analysis with tools like Wireshark.

Trends and the future of Cybersecurity

- Artificial Intelligence in cybersecurity – opportunities and risks.
- Ransomware attacks and recent examples.
- Deepfakes and cybersecurity: new digital threats.
- The future of authentication: biometrics, physical keys, and zero-trust.
- Cybersecurity in smart cities and critical infrastructures.
- IoT (Internet of Things): advantages and dangers.

The oral presentation should last **5 - 10 minutes**. After this, you should be able to answer some questions regarding the content of your work. Base your work on recent information!

 The use of notes is allowed, but only as an occasional resource. Remember that this is an oral presentation, not a reading session!

Assessment guidelines:

Your presentation will be evaluated regarding the following criteria:

✓ **Content development = 30%**

- *shows knowledge of topic-related issues,*
- *expresses coherent ideas and all the required pieces of information,*

✓ **Fluency = 20%**

- *produces a presentation speech with little or no hesitation to formulate ideas,*
- *shows a clear and correct pronunciation and accurate word stress and intonation.*

✓ **Use of Language/ Accuracy = 30%**

- *shows control of grammatical forms,*
- *uses a variety of specific vocabulary in an accurate and appropriate manner,*
- *little or no noticeable interference from mother tongue.*

✓ **Communication Skills = 20%**

- *ability to communicate ideas clearly and naturally,*
- *shows a confident posture and is able to catch the audience's attention.*
