

Preparation exercises for the written test

LINKING WORDS

1) Read the following text.

Isaac Asimov, a science fiction writer, once said “I do not fear computers. I fear the lack of them.” These days, most people cannot work without a computer. However, is it true that the use of computers is always beneficial?

Without doubt, there are several advantages to using computers at work. First of all, they help people to work faster. For example, word-processing is much faster than writing by hand and can help you avoid spelling and grammar mistakes. Moreover, employees can organize their work better with a computer. They can save their work and organize their files into folders so that they can find what they need easily.

However, using computers at work also has some disadvantages. One disadvantage is that it is not safe to store all your work on a computer. Documents can get lost if the computer crashes or breaks down. Also, people are losing their jobs as computers replace people at work.

To sum up, using computers can be both advantages and disadvantages. Despite the problems, however, I believe that they are an important tool at work and we should try to make the best of them.

1.1) Replace the underlined linking words in the text with the following:

To begin with _____

In spite of _____

In addition _____

For instance _____

Furthermore _____

In conclusion _____

On the other hand _____

Because _____

1.2) Complete this speech made by the leader of a Korean delegation at the end of a trip to Scotland with the words and expressions from the list below.

first of all | in conclusion | in addition | therefore | instead of | as a rule | however | in fact

'Could I just say a few words? Thank you. Well, 1) _____ I would like to thank everyone here at GMK Ltd. for organising today's visit. We have enjoyed meeting all the staff, seeing your new products and looking round your factory. 2) _____, I would like to thank the local Chamber of Commerce who made the whole trip possible. As you know, we see the European market as very important for our company. 3) _____, it is central to our future plans. 4) _____, I'm sure that we can look forward to even closer cooperation between our two companies in the future.

5) _____ I think it's better to keep the ceremonies short on occasions like this, 6) _____, I would just like to take this opportunity to leave you with something to remember our visit, and so I have great pleasure in presenting this book with photographs of Korea to your director, Chris Armstrong. 7) _____, I hope that we may soon have the pleasure of welcoming some of you to our country in the future. Perhaps next time we will meet in Seoul 8) _____ Glasgow! Once again, thank you all very much.'

VERB/ ADJECTIVE/ NOUN + PREPOSITION

A. VERB + PREPOSITION

apply for approve of believe in belong to benefit from compete against comply with concentrate on consist of cooperate with decide on depend on focus on hope for	insist on know about lead to listen to object to pay for qualify for refer to rely on specialise in suffer from sympathise with take care of wait for
--	--

*I've applied for a new job.
Can you take care of the office while I'm out?*

B. ADJECTIVE + PREPOSITION

1. Adjectives connected with feelings:

afraid of	interested in
amazed at/by	serious about
bored with	keen on
disappointed with	shocked at/by
doubtful about	nervous of
enthusiastic about	surprised at/by
excited about	optimistic about
fascinated by	suspicious of
fed up with	pessimistic about
proud of	tired of
fond of	pleased with
satisfied with	worried about

2. Other adjectives

accustomed to	full of	rich in
answerable to	guilty of	right about
attached to	important for	safe from
aware of	involved in	the same as
capable of	late for	similar to
certain about	married to	suitable for
compatible with	opposed to	sure of
covered in	popular with	typical of
dependent on	prepared for	used to (= accustomed to)
different from/to	ready for	useful for
famous for	related to	wrong about
fit for	relevant to	lacking in

*We're all disappointed with the poor figures.
I'm responsible for a sales team of eight people that covers the south of the country.*

C. NOUN + PREPOSITION

ability in advantage of advice on agreement with/about alternative to approval of awareness of belief in benefit of/from cause of certainty about comparison with complaint about cost of decision about/on difficulty with disappointment with division into doubt about example of	excitement about experience of/in fear of focus on hope of information about insistence on insurance against investment in interest in invitation to involvement in knowledge about knowledge of lack of matter with method of objection to opinion of opposition to	optimism about payment for protection from pessimism about preparation for price of reason for reference to reply to responsibility for satisfaction with similarity to solution to suitability for substitute for success at/in tax on trouble with wait for worry about
---	---	--

1. Complete the sentences with one word from the list and the corresponding preposition.

A. VERB + PREPOSITION

agreed apologized apply belong comply explain heard
hoping insist listen pay qualify rely remind

- You can _____ the goods in twelve monthly installments.
- Excuse me, but does this umbrella _____ you?
- The first thing is to _____ the client to find-out their needs.
- I asked my lawyer to _____ the contract _____ me.
- Everybody _____ the decision. It was unanimous.
- There's a new job in R&D. I wonder if Chris is going to _____ it.
- Jill is a good team member. You can always _____ her in a crisis.
- They've _____ the delay and said that the items are in the post.
- I'm certain to forget. _____ me _____ it nearer the time.
- It's been a disappointing year. We're _____ better results soon.
- Have you _____ Jackie recently? She hasn't written for ages.
- Does this product _____ European safety standards?
- No, no, I _____ paying. You're my guest.
- If we build the factory in that area we'll _____ a regional aid grant.

B. ADJECTIVE + PREPOSITION

attached tired dependent popular involved safe suitable serious

1. This fund is very _____ investors looking for long-term growth.
2. The firewall should make the network _____ attack by hackers.
3. For further details, see the copy of the contract _____ this letter.
4. Starting salary is _____ previous experience.
5. I don't think they're _____ this, they haven't been in touch for weeks.
6. We're _____ every stage of the process, from design to production.
7. I need a change. I'm _____ doing the same thing every day.
8. Hedge funds are very risky. They are not _____ the private investor.

C. NOUN + PREPOSITION

advantage focus involvement objection payment price suitability trouble

1. We're going to change suppliers. We have so much _____ them.
2. The _____ oil has gone down by \$2 a barrel since January.
3. The _____ using a small company is that they're usually cheaper.
4. We're wasting time; we need to _____ the main issue.
5. We haven't received _____ the last invoice yet.
6. Does anyone have any _____ that proposal? OK, it's agreed.
7. There are rumours of their _____ illegal arms deals.
8. It's a violent film. I'm not sure about its _____ a young audience.

PHRASAL VERBS

1. Connect each of the phrasal verbs below with the correct definition.

- | | |
|-------------------------|--|
| 1) add on _____ | a) to remove from document or image |
| 2) back up _____ | b) to enter a device or website illegally |
| 3) boot up _____ | c) to make a secure copy |
| 4) edit out _____ | d) to connect to a network or power source |
| 5) freeze up _____ | e) to include |
| 6) hack in/into _____ | f) to locate precisely |
| 7) heat up _____ | g) to initiate the operating system |
| 8) home in (on) _____ | h) to crash, stop because of memory overload |
| 9) hook up (to) _____ | i) to enter data |
| 10) iron out _____ | j) to leave a system or network |
| 11) key in _____ | k) to enter a system or network |
| 12) log in (into) _____ | l) to install or configure |
| 13) log out (of) _____ | m) to turn off a computer or system |
| 14) print out _____ | n) to visibly enlarge |
| 15) set up _____ | o) to make faster |
| 16) shut down _____ | p) to convert a digital document into a paper document |
| 17) speed up _____ | q) to remove or rectify mistakes from software |
| 18) zoom in _____ | r) to get hot |

2. Insert the phrasal verbs that fit best into the gaps in the sentences below. Make all the necessary changes.

add on back up boot up edit out freeze up hack in/into home in on heat up hook up
iron out key in log in log out print out set up shut down speed up zoom in

- 1) All users must _____ using their ID and an 8 digit password to access the system.
- 2) I need to buy a new fan or graphics card because my PC keeps _____ too much every time I play a computer game or stream a video.
- 3) The basic word processor retails at just €60 but you can _____ spread sheet, presentation and desktop publishing software for only €10 more.
- 4) Once she had finished the conference call, she _____ from the video conferencing software and wrote all the details she remembered using her word processor.
- 5) His parents installed a tracking device on his phone so that they could _____ his location in an emergency.
- 6) I _____ my hard disk every 2 weeks, just in case.
- 7) I remember using a system disk to _____ my PC. Nowadays, I just use windows.
- 8) It takes a very long time to _____ the software but once it is installed it runs very quickly.
- 9) The IT department has recommended some very expensive anti-virus software to prevent people _____ the system and gaining access to our data.
- 10) She _____ all of the black clouds from her holiday photos.
- 11) The image wasn't quite right so he _____ to see better and then he made the edges straighter.
- 12) It was 5pm, so she stopped working, _____ her PC and went home.
- 13) Once he had finished the document, he _____ it _____ and got the customer to sign it.
- 14) This phone is very old and often _____ when I watch videos or play games.
- 15) She bought and installed a new processor to _____ her PC.
- 16) He _____ the password and hit "enter."
- 17) The software works fine but they still need to _____ a few little bugs before they can launch it.
- 18) After contracting gas and electricity, she needed _____ to an internet service when she moved into her new flat.

PASSIVE VOICE

ewrite the following sentences suing the passive voice.

1. The attacker is launching a pop-up suggesting that recipients install an Android app for added-security.
2. The recipient has filled in a form with his mobile number and details and has sent it to the attacker.
3. The attacker sends a SMS to the recipient's mobile with a download link for iBanking.
4. Disguised as a legitimate app, IBanking will leak sensitive data to the attacker.
5. The checkout operator scans the item.
6. The scanner reads the barcode.
7. The scanner converts the barcode into electrical pulses and sends them to the branch computer.
8. The branch computer searches the stock file for a product matching the barcode.
9. The branch computer records the sale of the product.
10. the branch computer sends the price and description of the product to the EPOS till.
11. The till shows the item and price.
12. The till prints the item and price on the paper receipt.

Unit 1 – Operating systems

1.1) Match the words (1-5) with the definitions (A-E).

1 PC		A a very small computer that typically does not have a keyboard
2 Tablet		B a hinged computer that is easy to transport
3 Laptop		C a computer that is intended for personal use
4 Desktop		D a powerful computer that processes advanced tasks
5 Workstation		E a computer that is intended for use in one location
6 BIOS		F to function in a specific manner according to instructions or software
7 control		G programs that manage computer's hardware and applications
8 operate		H a user interface that organises information into visual boxes
9 operating system		I a set of instructions in firmware
10 manually		J to have power over the way something functions
11 windowing system		F done directly by a person, without automatic functions

1.2) Read the textbook chapter. Then choose the correct answer.

Chapter 3

System Software

A system software is any program that allows computers to perform basic operations. The earliest computers **operated** with only basic software support. Users **manually** entered commands into a computer. This required specialized knowledge and lots of patience.

Now, computers come with sophisticated **operating systems**. These systems manage both the **hardware** and software of a computer. Users **control** their computer's operations easily with **windowing systems**. These allow even beginners to perform complicated operations.

Most modern computers come with pre-installed **device drivers**. These control the unit's operating system. Other components ensure that peripherals work with the operating system. Sophisticated **BIOS** in the **firmware** performs this function.

- What is the main idea of the chapter?
 - differences between old and new system software
 - costs of developing different types of system software
 - methods for developing system software
 - types of jobs available for system software developers
- Which of the following is a system software NOT used for?
 - managing a computer's hardware
 - allowing a user to enter commands into a computer
 - letting a computer run applications
 - installing firmware on a computer
- What is the benefit of a windowing system?
 - It manages a computer's device drivers.
 - It simplifies computer operations.
 - It costs less than basic support software.
 - It allows users to enter commands manually.

1.3) Look at the images and complete the words with the missing letters.

a. to _ o _ _ up

b. to l _ _ in

c. _ _ _ e

d. _ o _ _ _

e. _ _ _ _ s

f. _ _ p

g. h _ _ _ page

1.4) Match the words/expressions above with their corresponding definition.

- a. _____ – a piece of programming code inserted into other programmes to cause damage
- b. _____ – a piece of code or data created by a web server and stored on a user's computer
- c. _____ – to turn on a computer and have it ready for use
- d. _____ – the process by which you enter certain information before you're allowed to access a website or application
- e. _____ – a collection of data or information organised under a specific name and stored in a computer's folder
- f. _____ – a page that an internet browser first opens up to
- g. _____ – a handy way to make files smaller before sending them via email

Unit 2 – User Interfaces

2.1) Match the words (1-5) with the definitions (A-E).

1 icon		A to reveal the contents of something in order to use or edit them
2 GUI		B a list of options that appears when an item is clicked
3 open		C a feature on a computer screen that indicates where input will appear
4 select		D to mark something for a particular operation
5 cursor		E a visual way of interacting with a computer screen
6 Right-click		F a symbol that indicates a file or program
7 dropdown menu		G to bring up options using a particular mouse button

2.2) Read the manual. Then, mark the following statements as true (T) or false (F).

- Find the shortcut to Mailbag Deluxe on your **desktop**. The **icon** is a **folder** with a star in the corner.
- Right-click** the icon to show the **dropdown menu**.
- Select** the option that says "**Open Mailbag**."
- The setup guide will open. Click "Next."
- Type your name and email address. Make sure the **cursor** appears in the correct box.
- Click "Finish Setup." This step may take a few moments.
- Click "**Run Mailbag**." You are ready to use Mailbag Deluxe!

- The instructions help users install a program. _____
- "Open Mailbag" is an option from the dropdown menu. _____
- __ The cursor takes a few moments to appear in the correct box. _____

2.3) Choose the best definition for each word.

1 Drag	A save an icon	B close a desktop	C move a file
2 Folders	A organize files	B move windows	C create shortcuts
3 Shortcut	A a type of software	B a type of icon	C a type of window

2.4) Read the textbook excerpt. Then, choose the correct answers.

Chapter 10

User Interface Design

Engineers use **conceptual models** to optimize their systems for ease of use. In order to do this, they study the **user interface** carefully. Various views help engineers see different aspects of a design.

Engineers begin by considering the user's **mental model** of a system. This is closely tied to the **cognitive view** of a system. This view considers what information a user will need to know in order to operate a system. **Linguistic view** helps engineers imagine the ways a user will interact with a system. **Design view** lets them examine screen layouts and other elements of user interface design.

CLG (Command Language Grammar) divides a system into even more specific views. These views encompass all elements of interaction between the system and the user. CLG views a system according to three components: the **conceptual component**, the **communication component**, and the **material component**.

Each of these components is made up of two levels, each focusing on different information. The conceptual component includes the **semantic level** and the **task level**. The material component includes the **spatial layout level** and the **apparatus level**. The communications component includes the **keystroke level** and the **syntax level**.

- 1 Why do engineers use conceptual models?
 - A to make software easier to use
 - B to eliminate mistakes in software
 - C to provide information for software users
 - D to update a system's software
- 2 Which of the following is NOT a division of CLG?

A conceptual	C linguistic
B material	D communication
- 3 What do engineers use design view for?
 - A to divide components into levels
 - B to consider what information a user needs
 - C to consider the mental model of systems
 - D to examine elements of the system's user interface

Unit 3 – Computer Applications

3.1) Read the advertisement. Then, choose the correct answers.

ShorSoft Software Developers

We are the most trusted name in **application software**. Our software will enhance any project.

Our **office suite** comes standard with **word processing** software. You can also add our optional **accounting** software. Our **spreadsheets** will keep your household or small business organized.

Do you own a large company? Get ShorSoft Deluxe. This **enterprise software** has everything you need to manage your business.

ShorSoft's **desktop publishing** software is very user-friendly. It allows users to create prints and web layouts. It even optimizes documents for different **web browsers**.

We also offer **video editing** and **image editing** software. Preserve your family memories with high-quality videos and photos.

- 1 What kind of software is available to add on to the office suite?
 - A video editing software
 - B word processing software
 - C accounting software
 - D desktop publishing software
- 2 Which of the following is NOT offered by the company?
 - A web browsers
 - B image editors
 - C accounting software
 - D word processing programs
- 3 What is a feature of the company's desktop publishing software?
 - A It keeps track of household information.
 - B It comes standard with word processing software.
 - C It makes documents easy to read on webpages.
 - D It allows high-quality photo and video preservation.

3.2) Complete the sentences with the verbs in the box.

accessing copy create download edit install press
save search store upload zip

- I have to _____ a new Facebook profile.
- It's better if you _____ all those files before you send them.
- I can't _____ my certificate to send to school.
- It is safer to _____ everything you do.
- You just have to _____ the right keys to write an @.
- My brother told me to _____ an anti-virus.
- I never _____ songs. I buy them at the iTunes store.
- I don't know that word. I will _____ the web to see if I find it.
- I have an external disk to _____ important data.
- I keep a _____ of every document I print.
- I'm having problems _____ information on the web.
- I will _____ the PDF before I send the document because of the size of the images.

Unit 4 – Networks

4.1) Read the article about networks. Then, choose the correct answers.

PC Tech

Vol. 29, No. 3

180.230.2.4

Solutions for Networking

Network Troubleshooting

People often call IT professionals about **network** connection problems. But many problems are easy to fix without help. First, reconnect any loose **CAT-5** cable connections. Next, investigate **IP address** issues. This group of numbers allows communication on the **Internet**. Renewing your **DHCP** fixes most IP problems. Next, check the **router**. The router links **LANs** to the Internet. Make sure the router's **configuration** is correct. **WLANs** have other problems. Interference often blocks their wireless signals. But there is a simple solution. Just move the router away from walls and metals. Finally, **cycle** the network. Turn all equipment off for a full minute and then restart.

4 router

6 WLAN

- What is the main idea of the passage?
 - how to set up a network
 - correcting network problems
 - choosing network equipment
 - a comparison of LANs and WLANs
- What can you infer from the passage?
 - A computer is not functioning during a cycle.
 - LAN routers do not work well near walls or metals.
 - Interference impacts a router's configuration.
 - Renewing an IP address fixes DHCP errors.
- According to the passage, a LAN _____.

A assigns IP addresses	C links CAT-5 cables
B requires a router	D cycles a network

4.2) Choose the best definition for each word.

- | | | | |
|--------------|------------------------|----------------------------|-----------------------|
| 1 router | A a part of a computer | B a wireless network | C a networking device |
| 2 IP address | A a city-wide network | B an identification number | C a networking device |
| 3 LAN | A a local network | B a networking device | C a wireless network |

Unit 5 – Internet Security

5.1) Read the webpage. Then, mark the following statements as true (T) or false (F).

SHARP ALERT COMPUTING SYSTEMS

Security threats can cause serious damage to your computer. SharpAlert offers excellent **security software** to keep your computer safe.

Antivirus Software – Don't let unauthorized parties steal your personal information with **spyware**! And stop **viruses** before they destroy your computer. The SharpAlert Exviro package protects against all types of **malware**. It **quarantines** infected files. Then threat **removal** just takes one click.

Firewalls – Remember to update network security programs regularly. SharpAlert's Steelbar firewall **permits** access only to authorized users. It will **deny** access to anyone without proper credentials. Make sure your confidential information stays confidential!

- a) _____ The company's Exviro package includes protection against spyware.
- b) _____ The antivirus software destroys files that are infected by malware.
- c) _____ The webpage recommends using antivirus software instead of firewalls.

5.2) Match the words (1-7) with the definitions (A-G).

1 _piggyback	A a virus that attacks anti-virus software
2 _hacker	B a program file that installs itself without permission
3 _host	C an add-on that makes a computer virus part of the host computer's operating system
4 - overwriting virus	D a virus that copies its code over and destroys the files of the original data
5 - anti-antivirus virus	E to gain unauthorized access to a computer system by using the owner's connection
6 - resident extension	F a computer system that has a virus attached to it
7 _ virus	G a person who illegally exploits computer hardware and software

Unit 6 – Customer Service

6.1) Match the problems with the possible solutions.

- | | | |
|--|---|---|
| a. computer won't start | • | • 1. a sign of either hardware malfunction or a noisy fan |
| b. screen is blank | • | • 2. reinstall it with the Windows recovery disk |
| c. abnormally functioning operating system or software | • | • 3. restart it and get to work cleaning up the system so that it doesn't freeze again |
| d. Windows won't boot | • | • 4. turn the computer off and let it rest if it's getting hot |
| e. screen is frozen | • | • 5. clear cookies and temporary Internet files frequently |
| f. computer is slow | • | • 6. check to see if the monitor is plugged into a power point |
| g. strange noises | • | • 7. may be caused by a bad cable or phone line, check them |
| h. slow Internet | • | • 8. external hard drives are great storage solutions for overtaxed CPU's, and will help your computer run faster |
| i. overheating | • | • 9. test the power point with another working device to confirm whether or not there is adequate power |
| j. dropped Internet connections | • | • 10. try restarting your computer and run a virus scan |
